Welcoming the Sun

Vicki Shannon

It is Summer! Finally the days have become longer, the sun is shining more often and the temperature has increased. You may find yourself smiling more, feeling lighter and becoming more connected to Mother Gaia.

This is natural – as human beings we need natural light. It boosts our body's ability to store vitamin D, leads to higher productivity, benefits our vision and helps us to sleep.

Did you know that your body makes Vitamin D from cholesterol when your skin is exposed to sunlight and that scientists believe that the “happy” hormone called serotonin increases when nights are short and days are long?

That is even more reason to make the most of the beautiful weather of Summer. Many psychiatrists prescribe people get out in the sunlight for at least 30 minutes a day to help prevent or treat mental health conditions. The connection with nature also helps us to feel more uplifted and more connected to the energy that is all around us and Summer is the best time of year to do this.

Get out and go for a walk, lie on the grass, go for a swim, hug a tree – do

something that gets you into nature and maybe take the Sunflower Oracle magazine with you.

Embrace the light and welcome the Sun as we at the Sunflower Oracle welcome you to the Summer edition.

7 Health Benefits of Sunlight

- Improves your sleep. Your body creates a hormone called melatonin that is critical to helping you sleep
- Reduces stress
- Maintains strong bones
- Helps keep the weight off
- Strengthens your immune system
- Fights off depression
- Can give you a longer life

Spiritual Counsellor

Gayle Orr – New Directions

Working under the name of New Directions, I offer psychic mediumship, Reiki, workshops, Akashic Record readings and healing, meditation, mentoring, and Spiritual Guidance.

I have been blessed with my gift for over 28 years and over this time I have developed and grown from strength to strength to do the work the Universe has chosen me to do.

I started by learning tarot, meditation, Aura, and basic spiritual connection and how to trust and believe in my gift at the Francie Williams Foundation in Auckland. I studied numerology in depth and I use that modality daily.

Since I retired from full time work 10 years ago, I have continued to learn and grow, and now I work at a whole different level. My guide Dark Eagle has guided me so patiently so that I can now contact with love ones who have passed over. He led me to my Reiki teacher who worked with me to achieve my Reiki Master and still works with me to further my intuition and connection to create an amazing healing experience.

During lockdown in 2020, I completed 2 workshops, level 1 and level 2 on Accessing and healing through the Akashic Records.

By accessing the Akashic I can go further into past lives and help

people to heal and release past life issues, behaviours, fears and connections. This allows them to gain a better understanding of their soul purpose and their journey in this life time.

I really love to see people leave me after a healing session or a reading, feeling lighter, happy that they have connected with a loved one, or received guidance and messages. This makes my work worthwhile, and I feel so blessed to have this gift so I can share it with so many people. Knowing they can get closure, relief and answers to the questions and allow them the happiness they are seeking.

MINDFULNESS4DOGS

Online training courses from puppies through to adult dogs

At Mindfulness4dogs, we know that the way an owner behaves is one of the major deciding factors in their dog's behaviour.

It's that key truth which inspired us to set up a business that's focused on helping owners and their dogs restore emotional balance, using one-on-one coaching, classes and online courses.

Over the years, we've learned of countless owners who've tried in vain to correct their dog's behaviour, and are still confused as to why their dog acts like they do.

We've seen far too many people struggle with the frustration and embarrassment that comes along with problematic pet behaviour.

We know it doesn't have to be like this.

That's why at Mindfulness4dogs, we connect with owners to empower them with the knowledge, understanding and support that they need to create good environments for physically and emotionally balanced dogs.

Mindfulness4dogs offers dog training in Hamilton, Cambridge and the wider Waikato districts, so no matter where you are we've got you covered. Our awesome training centre is situated midway between Hamilton and Cambridge.

We offer in home private 1-1 training, for puppies and adult dogs, covering general training through

to aggression and trauma. Our team also run group classes and workshops around Hamilton and Cambridge.

Holistic Psychology with Crystal Foster

I believe every person is a unique expression of creation, and that every part of us is sacred.

The way I work is to walk alongside people as we explore the driving factors behind any mental health difficulties being experienced and address these together.

Since completing Clinical Psychology training in 2012 I have worked with people from all walks of life.

I incorporate mind, body, and emotion focused approaches, and can assist in helping you develop a deeper connection with yourself and your own wisdom through learning how to allow and honour your feelings as they arise with acceptance and compassion. I have also completed studies in the rapidly growing field of Nutritional Psychology. The understandings being brought forth in this area are paradigm-shifting for mental health! Good nutritional intake and absorption can strengthen resilience to stress, increase the ability to focus and think clearly, bring more balance to emotional states, and help improve sleep.

Another way I can assist is to help you develop skills in practicing trauma sensitive yoga and/or mindfulness. Trauma-sensitive yoga allows for the cultivation of peaceful embodiment without necessarily having to talk things through (because not everyone wants to talk). This can be a gentle and powerful way to connect with yourself through your body.

If you would like more info about Holistic Psychology, trauma-sensitive yoga, or group education on Nutritional Psychology or Holistic Mental Wellbeing, please contact me.

Certified Feldenkrais® Practitioner

The Feldenkrais Method® (pronounced FELD-den-krice, rhymes with “rice”) belongs to the field of somatic education.

It uses gentle movement and directed attention to help people learn new and more effective ways of doing what they like. In plain terms, it's an easy way to reduce pain and be more in control; the movements involved are often slow, gentle and safe.

The health benefits are muscular ease, increased vitality, fewer pain meds, but also mental wellbeing and better self-care.

It is taught through group classes (Awareness Through Movement®) or individual hands-on sessions (Functional Integration®).

My journey towards becoming a Feldenkrais®

practitioner started from the desire to help my child who had had a stroke at just 40 days old. While originally I've been looking for ways to support children with special needs and their families, I now love taking care of mums at any stage of their mothering journey. I am also fascinated by all things brain,

and in my work with people living with persistent pain, I combine gentle movement, skilled touch and pain science education.

I teach group classes in Hamilton, including Pregnant Pauses® and Pelvic Floor workshops, and offer private sessions in Gordonton and Hamilton.

Healing Power of Sound

Annie Jameson

Annie is a Sound Healer, Crystal Bowl Master, Musician and an Intuitive.

Her love and passion is to create sacred sound with Alchemy Crystal Singing Bowls™ and other high vibrational instruments to bring people into a deeply relaxed centred space.

When the quartz crystal singing bowls are sounded with reverence they invoke a quiet peace that can still our minds and release stress from our bodies, allowing us to relax and be open to receive healing.

Our entire human body down to our DNA is crystalline in structure, causing it to respond and resonate with the extraordinary frequencies associated with quartz crystal.

Each sound healing session is a unique experience as Annie creates a sacred space, leading you on a journey within to heal mind, body and soul.

Through playing and toning with the crystal bowls she intuitively weaves the exquisite pure tones, bringing your chakras and energy into balance.

Transformation may be experienced on many levels.

Annie also creates music for deep relaxation, mindfulness and meditation.

"When the bowls themselves sing and resonate, I immediately feel a deep sense of inner stillness, peace and calm". - L.K

Intuitive Energy Healing

with People & Animals

The body, with its innate wisdom and intelligence, has the tools required for healing and creating positive change – its natural response is to flow, and thrive.

Marguerite supports and inspires. She works with people and animals to assist them to flourish in their lives, overcome challenge, and reconnect with their own knowing. Healing the disconnect within the Self brings about a positive shift of awareness and consciousness.

Marguerite connects with your innate wisdom. She listens and is guided, as the body indicates the nature of the treatment that is most beneficial at that time. This gentle hands-on, and off, approach is unlimited and Light in its nature.

The benefits of this gentle and intuitive healing are many, and facilitate release and change where required.

As a Canine Therapeutic Bodyworker her healing work with animals, predominantly dogs, follows the same intuitive and empathic approach. Gentle releases with hands-on neurofascial bodywork, mobilisation of core body structures, craniosacral and subtle energy balancing. This work assists our canine friends mentally, emotionally and physically, and addresses a myriad of issues, including chronic silent pain – an unseen cause of stress and imbalance in our dogs.

Connective Distant Healing sessions available, as are Vouchers for all sessions – people and animals.

The Oracle's Experience

Marguerite, Intuitive Body Therapist

“Trust and accept yourself, you are enough, you are different and you are meant to be. Don’t let anyone diminish your Light.”

The first thing you’ll notice when you meet Marguerite is her warmth, genuine interest and care for you, and her passion for what she does. Marguerite just adores dogs, and spent an hour working with our dog Rock.

She has a great deal of respect for animals. She interacts with them as their own beings, neither inferior to herself, nor deserving of less care. Dogs, she explains, are sentient and mindful beings. They feel pain, grief, loss and stress just like we do. Any past trauma, whether physical or emotional, can sit with them and affect them

psychologically, or manifest in physical symptoms, just like with humans. Dogs are also great teachers and friends. “My dogs were responsible for so much of my own personal healing. They hold the mirror up so quietly and gently and love you through it all.”

Marguerite’s session with Rock began with some questions for us, to establish a picture of Rock’s diet, any past trauma, and what he was like as a puppy. We also talked about how he interacts with us now and any areas that we were concerned about.

Marguerite gave us some tips along the way, and we could tell that she has worked with a lot of dogs in her time!

She then put Rock up on her hydraulic table. Rock, who tips the scales at 54kg, wasn’t too en-

thused about sitting on what was for him a narrow table and being elevated to hip level! But this is where Marguerite's patience and love for him really illustrated the connection she has with her animal companions. Rock trusted her calm and confident guidance, and in no time he was relaxed and ready.

Marguerite spent the rest of the session examining and treating Rock up on the table. She uses a blend of techniques in her practice, which are guided by her intuition and connection with her client, either animal or person. She listens to and feels into what the body needs.

Today's initial assessment centered on the neuro-fascial network on either side of the spine, mapping out what was going on in Rock's body, looking for areas of pain, restriction and tension. With this information she then used a series of fascial releases, easing out the layers of tension. This shifted Rock from reactivity to more appropriate responses indicating release and relief. This allowed some deep cranio-sacral work to be done. She explained what she was doing throughout the assessment, pointing out her findings as she went. She also showed us a few practical techniques that we could use on Rock at home, in order to continue the work that she has started with him today.

It was amazing to see Marguerite work with our dog. We would highly recommend a visit to Marguerite with any dog, but particularly if your dog has experienced any sort of physical or emotional trauma. And, since I admit to feeling a little envious of the neuro-fascial care Rock was receiving, I think our next appointment is going to include a session for one dog and two humans!

Q and A with Marguerite

What services do you offer?

I offer Intuitive Energy Healing for people and animals. I am also a Dog Behaviourist, Trainer, and Canine Therapeutic Bodyworker.

Why is this work so important to you?

I love this work. I am no stranger to pain, and I know how it can diminish joy, function and potential. Coming from this place of understanding, and using the gifts God gave me, I am here to support people and pets to ease pain and discomfort, and assist them to let go, live well and flourish.

Could you tell us about how your interest in intuitive energy healing began?

It is my normal. From a very young age I would gravitate toward anyone, person or animal, who was in pain or had been hurt, and put my hands on them to help ease their pain and suffering... to make them feel better. It has always been an innate response. Also, one of my beautiful dogs was unwell, and I was able to ease her pain and extend her time with us.

What obstacles did you face to get to where you are now and how did you overcome them?

I was strongly discouraged by my parents, and others, who were uncomfortable with what I could do. I always felt different to others, was ridiculed and was forced to put my own beliefs and gifts away, so others wouldn't feel uncomfortable. As time passed, it became important to be in my truth...to be the me I came here to be, and to honour what was gifted to me. I just made the decision...it was time.

Who should seek as intuitive energy healing as a holistic wellness technique?

Everyone! Two and four legged. Anyone looking for ease, balance, support, change, peace, relaxation, growth.

Could you share a wellbeing tip to the community?

Honour yourself...be kind to you and learn to truly love yourself. You are unique, awesome, powerful. Meditate... get in touch with your true self.

If you could tell your younger self one thing what would it be?

I would say "Trust and accept yourself, you are enough ... you are different and you are meant to be. Don't let anyone diminish your Light."

I also saw this and it appealed: "Don't let the tame ones tell you how to live" – Jonny Ox

Vicki Winn Energy Healer

Vicki works intuitively with different vibrational energy healing methods to support you, to clear blockages and dense energy held in your body, mind and emotions. This enables you to come into harmony, balance and healing, and feel more empowered and energised.

I have worked with the First Light flower essences since 2006. I have seen shifts and changes within both myself and clients as the vibrational healing chord within each native NZ plant creates healing and harmony within our energy fields in a gentle yet dynamic way."

Each plant came forward with its own healing vibration to harmonise negative personality, attitudes, feelings, traumas and belief patterns that are held in the subconscious mind.

I intuitively choose a selection of essences for each person and then pass on any messages that come through. Each bottle lasts for a month with drops taken each day. These essences also work really well for children and pets.

I also offer Usui Reiki treatments which include sound healing with Tibetan bowls, light language and toning.

Reiki is able to relieve stress, anxiety, muscle tension, remove energy blocks, promote deep relaxation, strengthen the immune system and foster natural self-healing.

Channeled light language clears blocks and distortions in your energy, bypassing the logical mind to speak directly to your physical and spiritual bodies. I am guided by my guides, archangels and ascended masters and also the crystals that I work with regularly.

I work from Infinity crystal shop on Wednesday and Thursday and from home in Hamilton East by appointment.

Carolyn Fox Tranquil Light Medium

I am medium and a healer. Coming from a long line of mediums going back generations, it has been so nice to have the support growing and learning my gifts.

Often people require a healing to enable them to move forward or to receive clear guidance. I work with cards in my readings and healings, often combining both depending on what a person needs.

My readings are done intuitively using messages from spirit, helped along with what I can see in the cards. I check for energy flow through the body and find areas that need focusing on.

Cards and crystals guide and assist in healing. My goal for everyone is to leave feeling refreshed and comforted with a sense of peace and understanding.

In between this breath and another is where our Hearts find the stillness within the song of the Universe.

This is where I will greet you with love's embrace. Whispering our truth, I am not over there, I am here, right where you sit, be present with me and receive my gift.

I am as close as your next breath.

Feel with me, remember your Light, Listen without judgement.

Seeing from within, our hidden faces, hearing our silent message, surrender to her voice.

Bringing you home to Spirit. So you will know there is only this.

Nicola Mary Burton

Self-Care is important around this time of year!

As the pressure upon us speeds up to complete deadlines, finish up projects, juggle family with social activities – and perhaps you may be preparing for the festive season. Phew!!!

Taking care of our energy is the Yin and Yang to balancing our lifestyle. There are many holistic modalities to choose from, including Reiki healing. It is a beautiful energy healing treatment, a gentle technique which helps to support your overall wellbeing.

Reiki Energy Healing is a non-intrusive Japanese Technique and assists to reduce stress and helps promote healing.

We know that everything in the Universe is energy. Including our emotions. Consider, just for a moment, someone angry – and how your 'own' emotions can be affected by their energy. Especially leading up to the busy festive season.

Now recall a celebration where everyone was happy, everyone joyous, including you. I am certain that you experienced an expansion in your own energy, feeling possibly intoxicated with heightened energies that leave your mind, body and spirit bathing with the warm and fuzzies.

We have all experienced emotional blocks at different times in our lives. Maybe it's those disappointments in not landing that job or promotion you had hoped for? The offer on the dream house or car that fell through. This energy can get 'stuck' somewhere in the mind, body and soul.

Reiki is Pure Life Force Energy and helps to unblock and dissolve those physical,

mental, spiritual and emotional blocks. It's for enhancing the body's natural overall healthy balance, wellness, vitality and wellbeing. Reiki can heal all facets of your life. Imagine the benefits of this healing modality, and gifting yourself with a feeling of peace and calm as you recharge and re-centre your mind, body, spirit and soul.

Make Reiki energy healing a part of your self care personal ritual.

Intuitive Healing For Body, Mind and Soul

Our daily lives are filled with pressure and stressful situations, juggling the many "roles" we fill, in any 24 Hour period, that we often forget to take time for ourselves, and so it becomes easy for us to lose touch with the essence of who we are and why we are – a spirit here having a human experience and here to express, through the things we love to do, the Infinite.

An Intuitive Healing session of aligning, balancing and grounding our energy system tends to connect us as a whole – mind, body and soul – to the Infinite. In this space we are able to access all that we need.

The sessions may include some of the following: Guided meditation, visualization, breath work, affirmations and body scanning.

These sessions are great for:

- Relaxing
- Releasing thoughts or patterns that no longer serve us

Quinn Fogg – Refined Body Adjustment

I have been in practice as a natural therapist since 1998, treating a variety of complaints which include headaches, back pain, sciatic discomfort, knee and ankle aches, occupation overuse syndrome and foot problems.

It was in the process of this work that I developed a very soothing, non-invasive technique that is based on the principle that gentle persuasion is more effective than heavy muscle manipulation.

I have found that by being able to integrate my natural healing ability with my other modalities, disciplines and principles I am now able to offer a complementary and non-invasive holistic healing and accelerated recovery process.

Although my experience and practice was based firmly with people, I began to receive enquiries from small and large animal pet owners requesting assistance with various health issues which had arisen with their animals.

From there my animal practice grew to an extent where I now assist dogs, cats, horses and even the odd cow in my refined body ad-

justment therapy.

Glenys is passionate about helping people achieve greater wellness and vitality through her work as an Energy Healer. She believes it is our birthright to experience full health, joy and vitality.

As an energy healer Glenys can work directly to correct imbalances in the various subtle energies, or chi, that flow through and around your body. These energies include the chakras, meridians and aura. Glenys began her training in 2000 with Reiki energy healing, and since then has added ThetaHealing, Eden Energy Medicine, Akashic Records soul reading, flower essence therapy and soul dream analysis to her "toolkit".

These are all tools and techniques that she has learned and used successfully for her own healing journey first. With her original training in Physics, Glenys has a deep understanding of energy from the scientific quantum perspective.

An individual healing session with Glenys typically lasts one hour, and can be in person or online via Zoom. After a healing session clients almost always report feeling happier and lighter, as though a burden has been lifted.

Sacred Self Care

Water Meditation by Vicki Shannon

Summer is filled with opportunities for you to swim, splash, dive, play or even walk through water. Water is a symbol of renewal, transformation. It moves around obstacles as if they were nothing.

For this self care ritual you will invoke the cleansing power of water through a short meditation exercise.

Gently close your eyes and bring your awareness to your breath. Feel the natural rhythm as you breathe. Breathing in through your nose and out through your mouth. Let all thoughts and feelings of your day wash away.

Visualise a gentle stream – the water is free flowing over the rocks. Grass graces the banks as this stream meanders its way down through a paddock, not blocked by any object or obstacle.

Focus on the gentle sound the water makes as it flows over the rocks with ease, while breathing in through your nose and out through your mouth.

Water is cleansing and transformative. It purifies us and releases all tension and

negativity from our day. Focusing on the release in your mind, call on the water to cleanse you and release you from whatever you are holding on to.

“Water I ask that you cleanse me of and allow me to flow through and past this.”

Imagine you put your hands into the stream at your feet and feel the water washing over your hands, moving around your hands as if you were not even there. Water knows no obstacle.

Imagine the water flowing over your hands, taking with it whatever you are holding on to.

Imagine this as the colour red. A red orb is now carried by the water into the stream. Picture this pain or hurt being diluted by the water and gently, with no judgment, being washed away.

Give thanks to the water.

“Thank you water for releasing me from this pain/negativity.”

Take a deep cleansing breath in through the nose and out through the mouth.

Therapeutic Angel Jan Maunder

Hello, my name is Jan Maunder. I'm a Registered Nurse of 20+ years and a light worker.

I offer face to face and distance treatments like massage, reflexology, Indian head massage, lymphatic drainage, reiki, combined energy healing and intuitive reading, hypnotherapy and psychic online readings and courses.

I use my nursing knowledge to enhance my distance and face to face energy and reiki healings. I scan from head to toes, visualising every organ and tune into the client's needs to direct healing energy where my intuition feels it's most needed. This helps relax, re-energise and dispel unwanted negative energy from the body, mind and soul.

I use my skills of hypnotherapy, neuro-linguistic programming and theta healing to help clients move forward to a life of manageable stress and anxiety levels, and freedom from phobias or negative conditioning from childhood or toxic relationships. To help maintain and reinforce positive results meditation recordings are made and given to clients.

As my holistic skills develop, so do my psychic skills of mediumship. I now get regular input from the spirit and angelic realms. Very often my client's current issues are communicated to me by my spirit team before the client voices them.

I am a firm believer in the less the client tells me, the better they will believe and trust in what I and my tarot cards reveal. Thus as their current life story unfolds with the turning of each tarot card, their predicted future pathway being revealed by the tarot will more likely be acknowledged as truth and followed.

The Oracle's Experience

Hydrogen Therapy with Kathy Just

“Love EVERYTHING with your heart wide open!”

With a cup of freshly brewed pine needle tea from her property, Kathy started off by introducing me to the Breath of Health hydrogen inhalation therapy machine.

This machine is filled with distilled water which is then deionised to remove any further salts and minerals before it goes through the electrolysis function. The electrolysis function is to separate the therapeutic H₂ Gas from H₂O in the water to be inhaled through the cannula.

Champion C60WS water drops are placed in the holding cup in the front of the machine where the H₂ Therapeutic gas is released. You are not only receiving the benefits of the hydro-

gen gas but also the C60WS water drops as well.

Another unique feature is the ARP Tech Cell installed on the front of machine. This creates a super conductive ‘field’ plasma from the electrons in the ARP Tech Cell. This is an energy field which is created with the plasma of carbon, zinc, 24k gold and quartz crystal.

Once this was all explained to me, what I thought may be an uncomfortable experience was the complete opposite. The flow of the hydrogen gas was nothing more than a mild, gentle “puff” through a small nasal cannula. A completely relaxing one hour session was all that it took. Once you are comfortable and all set up you are free to read your favourite book, meditate, listen to music, drink a cup of tea or just “be” with yourself while surrounded by the serene beauty

of Kathy’s property. Once the session is complete you can have the added benefit of drinking the H₂ enriched water with the C60WS drops.

Hydrogen therapy has many benefits and it works on a cellular level. Most of all it treats all inflammation in the body. We all have inflammation, whether we are aware of it or not, and hydrogen therapy is a natural non-invasive treatment that has no side effects and cannot be overdone.

It is one of the top antioxidants. It provides your body with more energy, increases blood circulation, slows down aging, and boosts, protects and regulates the immune system to name only a few.

For one hour a day of “me” time it is definitely worth trying and seeing how it works for you to improve your overall health and wellbeing.

Q and A with Kathy

What services do you offer?

Molecular Hydrogen H2 Inhalation Therapy.

Molecular Hydrogen is a very therapeutic gas which anyone can benefit from, combined with the unique Champion C60WS for even more benefit of optimum health, it is nothing short of outstanding for its health benefits when applied with commitment and patience.

Inhaling Molecular Hydrogen is effortless and something everyone can apply. It is a health modality I foresee being introduced even more in the ER hospitals (alongside Oxygen) because of the immense benefits of bringing the body back into homeostasis (balance).

It has a very high safety profile (we make H2 in our gut), does not interfere with other medications and is pH neutral.

Why is this work so important to you?

Hydrogen offers many, many health benefits and because Molecular Hydrogen is the smallest, lightest element, it has a self-selective intelligence to target areas of distress, i.e. inflammation, dis-ease in the body and set about bringing the resetting of the body.

I commit practice to pure living. Humanity is constantly exposed to so many pesticides, herbicides, environmental, water and food pollutants, etc. One must continually detox and renourish the body to maintain and advance one's health.

Health is one of our most important investments we can make.

Could you tell us about how your interest in hydrogen therapy began?

I am a committed health seeker and I am very privileged to be working alongside a very enlightened medical herbalist in the USA, with many years of experience, who works with other health professionals and scientists to develop a most unique Technology, Advanced Resonant Plasma Technology (ARP).

Hydrogen is one of the main nutrients used in their Health Range and knowing the benefits now of Hydrogen I am hooked! (excuse the pun).

Their patented ARP Technology is unique to them where they can permanently charge many of their 100% natural supplements with Hydrogen making them bio-active and amplifying the activity of the supplement, creating more effectiveness and results. It is essentially three modalities of Resonance, Vibration and Frequency rolled into one.

The Hydrogen ‘Breath of Health’ Machine that we use, generates a high output, combining the potent Champion C60WS Molecule which is a powerful antioxidant in its own right. Aromatherapy can be used if one chooses as well.

Who should seek hydrogen therapy as a holistic wellness technique?

Hydrogen is gaining momentum in the wellness industry now, which I am pleased to see. Anyone can use Molecular Hydrogen therapy, as it has a high safety profile. The more severe the dis-ease the better Hydrogen works. Its ability to enter deep into the cells and re-balance the cells and organs is quite astounding.

It provides a vast array of benefits including antioxidant for oxidative stress, anti-aging, improves the function of every cell and organ in the body, supports and rejuvenates the DNA for cell signaling, metabolism and gene expression, and much, much more.

Could you share a wellbeing tip with the community?

Everyone is wonderfully unique and we are all physically different on the outside.

However, from a spiritual perspective we are all connected and your ‘I AM’ Presence is ever about you, forever standing to pour to you its Love, Wisdom and Power.

It is free to access and I encourage you ALL to forever access it, then you can all have all the Health, Love, Wisdom and Power you could ever hope for.

If you could tell your younger self one thing, what would it be?

Love EVERYTHING with your heart wide open!

The Path of Kriya Yoga with Kavita Parshotam

Kriya Yoga is an ancient meditation technique. It works with energy in the deep astral spine where the chakras are located.

The Kriya technique was hidden in secrecy for many centuries. The great Yoga Master Paramhansa Yogananda popularised it through his book *Autobiography of a Yogi*.

According to Yogananda, Kriya Yoga is the most effective technique available to mankind today for reaching the goal of Yoga: union with the Divine.

Yogananda says that Kriya Yoga quickens spiritual evolution. One Kriya breath, which takes about 30 seconds, gives you one year's worth of spiritual growth.

The daily practice of Kriya changes you from the inside out. Those things that held you back, soon start to fall away. You reach a point where

you are no longer driven by old habit patterns, but are freer to live in harmony with the universe and with your true soul nature.

The path of Kriya Yoga is very practical in that it helps you become a better person in every way. It brings harmony in your relationships. It enhances your ability to concentrate. It improves your general wellbeing.

You can begin on the path of Kriya Yoga with the *Learn to Meditate* course.

Here you will learn a simple yet effective technique of meditation that was taught by Yogananda. You'll also learn how to establish and maintain a sustainable meditation practice, and how to have deeper, calmer meditations.

Kavita is a lifelong disciple of Paramhansa Yogananda. Using apt metaphors, life experiences and storytelling, Kavita effortlessly weaves the spiritual teaching into daily living.

Journey Practitioner with Jo Gordon

I am a Journey Method Practitioner. I know what it's like to feel muted, oppressed and enclosed in grief. But I also know how it feels to burst out of that oppression, like taking a huge gasp of fresh air.

That's why I believe passionately in creating a safe space for people to explore the process of nurturing both body and soul, in a way that promotes wellness.

The more people I spoke to, the more it became clear that everyone has experienced some level of trauma which limits their ability to live life to the fullest.

I've also learned that, for one reason or another, most people just don't allow themselves the space to work through their emotions in a productive way.

I want everyone to be able to experience that "gasp of fresh air" feeling. So, I created Guided by Grace, supporting people to uncover their authentic selves through an empathetic, inclusive process.

A process which empowers people with the qualities they need to release their most authentic selves, gives them hope, and helps them understand that they can move forward in life.

The Journey Method can help you if:

- Fear, anxiety or stress is prevalent in your life
- You're feeling stuck or feel that there's just got to be more to life
- You're facing ill health or ongoing physical issues
- Unhealthy behaviors or circumstances leave you feeling depressed
- You're wanting more fulfilment in a relationship
- You're still searching for your infinite potential

The Journey Method utilises guided meditation style cellular healing. Sessions take 1-2 hours. Appointments are available via Zoom and in person in Hamilton.

Book Review

Awakening the Buddha Within

Awakening the Buddha Within by Lama Surya Das was the first book I read that piqued my interest in Buddhism and the Buddhist practice.

It introduced the fundamentals of Buddhism while following Lama Surya Das' story and examples from his life.

I was just beginning my path as a meditation teacher and this book helped to guide me, awaken me and support me on my journey.

Some of my favourite chapters are Part Two, Chapter 1, which introduces you to the Four Noble Truths. They are at the core of Buddha's teachings but are often the most misunderstood.

Some of my favourite quotes are:

Truth telling begins by becoming aware of what you tell yourself. – page 204

Daily meditation is the simplest means by which we stay on the essential path of awakening.

– page 77

From the sutra of Holy Buddha:

*Until you reach the path
You wander in the world
with the previous Buddha
Completely wrapped inside
As in a bundle of rags
.... You have this precious
Buddha! Unwrap it
quickly!!!*

I would recommend this book to anyone who is interested in Buddhism or Buddhist practises. It is easy to read with real life, modern day ways to interpret the Eight Fold Path and Four Noble Truths.

The book includes different meditation scripts and an interesting epilogue about a contemporary path to Buddhism.

Lifeforce Tonics

I love playing around with organic wholefoods, creating nutrient rich dishes. Incorporating in 'beyond organic' supplements are now an essential part of a TRUE HEALTH REGIME.

As all life is Resonance, Frequency and Vibration, I implement these Health tools (supplements and more) that carry a unique patented technology, Advanced Resonant Plasma (ARP) Technology. These three modalities are permanently charged into these health tools to amplify the conductivity, effectiveness and results, while at the same time uplift one's emotion state (as most dis-ease originates from the emotional body), while nourishing and harmonizing the physicality for rejuvenation.

What a Gas!

Therapeutic Hydrogen! As well as oxygen, carbon and nitrogen swirling in our universe. Hydrogen is now quickly being realized as a wonderful therapeutic gas for many reasons.

We have our portable H2 water generator that creates hydrogen rich water for our every-

day drinking and health benefits, so we decided to add Hydrogen gas as a therapy for even more benefit.

Some of the many benefits of H2 Therapeutic Hydrogen:

- Very high safe profile.
- pH neutral.
- Top anti-oxidant for neutralizing oxidative stress.
- Blood circulation support.
- Selectively removes harmful dis-ease and age-causing free radicals.
- More energy.
- So, much more than this.

Eternally grateful to have these health modalities available, which we are NEVER WITHOUT. Bless our Beloved Creator, The Powers of Nature and Forces of the Elements.

Morningstar Reiki with Sue Rhodes

Kia ora my name is Sue Rhodes and I am a Usui Reiki Master.

Reiki is a Japanese healing system that was founded by Mikao Usui. The word Reiki is a combination of two Japanese words, Rei translates as 'spirit or Universe' and Ki translates as 'life force

Energy'. Thus Reiki is energy healing that will bring about balance and harmony.

Reiki is complementary to other forms of healing, both natural and allopathic. Reiki is an experience so everyone will have their own, it is not something I can describe for you as it needs to be experienced by the individual.

Through my own personal experiences I find it helps me enter into a deep state of relaxation in which my body/mind naturally comes into balance.

Some of the benefits of Reiki are stress reduction, replenished energy levels, improvement of sleep, reduction of anxiety and an overall sense of well-being.

My journey with Reiki began when I completed my first level in 2008. Over the years I have learnt with various teachers and in 2019 I started from the beginning doing all my levels and within this process gained a great respect for Mikao Usui, the founder.

For me Reiki is about coming home to self, the remembering of your brilliant Light that is always there just sometimes covered over by your experiences and the journey of Life.

In 2008, Infinity moved to a bigger shop with space to hold classes, films, seminars, concerts and courses. The dream is ever evolving, in 2019 Infinity moved again. There is now even more space for products, healers and classes. As well as a monthly Spiritfest.

2021 brought more changes. Infinity is embracing the age of Aquarius with the addition of Female Energy at the helm.

Barry has been joined by his daughters Amanda and Nina which has brought a new direction and pace. We also have a wonderful team of very gifted healers and readers in store.

There has always been a family dream to provide a space where people can have a relaxed experience, to be able to shop, have a

This dream came into reality and ARK Infinity cafe was born. ARK stands for 'Acts of Random Kindness' something we embrace wholeheartedly at Infinity.

So come on in, grab yourself a coffee, healing or gift, or pay it forward with an 'ARK' in the cafe. There is always something new in store, so you never know what treasure or experience you will discover....

Renee Barrett-Jones Wairua Light

Tihei Mauri Ora!

I start by giving immense thanks to Nga Atua, the gods of above, below, beyond and within. The many universal energies that direct the flow of my Mauri. It is the essence of these energies that have created life force itself. Forever my heart will hold massive gratitude. From the mountain peaks of Tongariro and Tuhua, their waters that stream through the veins of Papatuanuku, hydrating and sustaining our lands, forever providing nutrients and resources for the survival of our physical being.

We each hold great magic deep within, not one being of greater or lesser quality. Equally, individually, personally spun perfectly for the purpose of one's journey.

My haerenga (journey) of wairua and energy has been known to me for as long I can remember. I have always been aware of my spiritual connection. The light I hold. The light I must share and the connection to the ones beyond and before me.

Being brought up in Te rohe potae, ki Taumarunui, being well connected to our whenua marae and elders has played a precious tone of music in my life. My father too has passed down his knowledge and the gifts of his experiences with wairua, healing and afterlife.

My soul purpose here on papatuanuku is to collectively rise spiritual vibration. To tautoko/support my brothers and sisters in their connection to healing and awakening their own inner spark. To shine this light upon all life force that reaches my Mauri.

Manaakitanga ki a koutou katoa.

Air-Purification Plants

Ronja Skandera

Reading the World Health Organization's statistics and facts about the link between household air pollution and health is frightening.

To summarise the problem – the average person spends 90% of their day indoors. The air inside the home contains a multitude of toxins and pollutants (in many cases 2 to 5 times more than the air outside, and in the worst cases 100 times more) that are responsible or at least contributing factors to severe allergies, asthma, lung cancer and heart problems.

Most of us are probably conscious of the quality of the roughly two litres of water we drink per day. But what about the 11,000 litres of air that we inhale each day?

Fortunately, there are some instant improvements we can make. Opening the windows, avoiding harsh cleaning products, fixing any leaks, vacuuming regularly, replacing old carpets, cleaning areas of mold, washing and airing bedding frequently...

But studies have also shown the efficacy of certain indoor plants. Science tells us that in isolation, a single indoor plant can contribute between 0.9 and 9% of pollutant removal. Though this may not be staggering, in conjunction with some of the other suggestions, you can make a real improvement. Not to mention the added mental and emotional benefits of surrounding yourself with plants!

Here are a few suggestions:

- **Rubber tree/plant** – the rubber tree's secret superhero power is fighting off mold and bacteria. It is also one of the highest oxygen producing plants. Keep out of reach of plant-partaking pets.
- **Spider plant** – having little to do with spiders, this plant sprawls from its pot and looks great on window sills. It is pet friendly, and helps to remove chemicals in the air.
- **Mother in Law's Tongue** – sporting a cool name, this plant is easy to grow and happy in any lighting condition. It filters toxins and doesn't take up much room. Toxic to household pets.
- **Golden Pothos** – a fast-climbing vine, it looks great crawling along a shelf or draping down a wall. It filters toxins and is very hard to kill. Should be kept out of reach of household pets.
- **Bamboo palm** – this magnificent indoor palm is sure to grace any space. It is safe for pets, and filters toxins from the air.

Sue Xu Therapy

I am grateful to my ancestors for teaching me the philosophy of being a human being and how to take good care of my health.

In 1992, I came to New Zealand. In 2006, I used my ancestors' medical knowledge to help my ex-husband recuperate from skin cancer.

My speciality is to use the whole traditional face-to-face diagnosis, scraping (Gua Sha), cupping and moxibustion therapy for conditioning and balance.

I also teach my unique skills to help people who need to learn. I use the Book of Changes (I Ching) to help clients deal with emotional problems too.

There are only three things of value in this world: Heaven, man and Earth.

May we all cherish our one-way trip!

Testimonial

Six years ago I had to have an operation on my forehead to get a cancerous growth removed at Waikato Hospital. It was done under local anaesthetic and was very painful. At the time, I was told to come back in ten weeks to have the same operation on the right side of my forehead and was given six different tablets "to be taken daily" from the chemist which I did for approximately two weeks, until I met Sue.

Sue told me to stop the tablets and she gave me treatment, Gua Sha, and an oil to rub on the right side of my forehead which was made from natural herbs. In a very short time, the signs of the cancer had disappeared, to the point where, when I went back to hospital, they could find no traces of cancer left, so did not operate.

That was over five years ago and I have not taken any pills or had any operation since.

Kia Ora e te whanau

My name is Te Oranga Turner and I am from Ōtorohanga, Ko Maniapoto Te Iwi, Ko Tainui Te Waka. I am a reader, a healer and a seeker of truth and my journey started many lifetimes ago.

In this life my work is to give guidance on present issues causing confusion therefore hindering people from their chosen path of abundance.

Getting people connected with their intuitive mind is a part of my practice as well as connecting people with their loved ones in spirit through spiritual channelling.

This is a taonga (a gift) that I so passionately share.

I was extremely grateful for the way she approached the reading. It was thoughtful, sensitive and straight to the point and unapologetically kind and gentle. A lot of what was shared in the first set of cards were confirmation of where I understand I am in my healing pathway. The second set of cards were affirmations of where I am heading and decisions I am making. What I truly appreciated as well was the extra guidance extended by tupuna korero.
