# The Grace of Nature

## Vicki Shannon

Welcome to the second Summer edition of the Sunflower Oracle! Mother Nature has graced us this Summer with amazing weather and hot temperatures. The natural world is there for us to enjoy, dig our toes into the mud or stand barefoot on the beach.

Diana, Queen of the Wilderness, is one such Goddess that embodies the natural world. Daughter of Jupiter and Latona and sister to the God Apollo, Diana reminds us of the tremendous power of walking barefoot on the earth. Often enjoying solitude, Diana reminds us that simplicity comes in taking the time for ourselves and great healing can be drawn from the earth.

This is true even if we are far away from nature. Perhaps in a big city or unable to touch the ocean waves, each of us is still able to access the power of the natural world that is always inside every one of us. You could visit a local market and purchase some flowers for your altar, or to fill a space in your bedroom where you see them every morning. You could pick up a leaf from a tree, dry it and keep it somewhere to look at everyday, to remind you of nature. You could play water sounds or a nature playlist on your phone while

you drive to work. The power of nature can be connected to in so many ways.

*"Look deep into nature and then you will understand everything better." – Albert Einstein*

Inside this Summer extra edition you will find some ways to reconnect yourself with the earth. Why not try out the Sun Salutations as a new morning ritual.

In the same way as the roots of the sunflower grow, so do to the roots of the Sunflower Oracle. We welcome Gail back to the Sunflower Oracle team as our new Coromandel representative, and we welcome Kathy as our Hamilton representative and Carina as our East Coast representative.

*May the earth keep you grounded beneath your feet!*

*May the water cleanse your heart and soul!*

*May the fire give you strength!*

*May the air calm your turbulent mind!*

*May Spirit always guide you.*

Warmest blessings,

**Vicki, on behalf of the Brian and Ronja**

# Spiritual Counsellor

## Gayle Orr – New Directions

**Working under the name of New Directions, I offer psychic mediumship, Reiki, workshops, Akashic Record readings and healing, meditation, mentoring, and Spiritual Guidance.**

I have been blessed with my gift for over 28 years and over this time I have developed and grown from strength to strength to do the work the Universe has chosen me to do.

I started by learning tarot, meditation, Aura, and basic spiritual connection and how to trust and believe in my gift at the Francie Williams Foundation in Auckland. I studied numerology in depth and I use that modality daily.

Since I retired from full time work 10 years ago, I have continued to learn and grow, and now I work at a whole different level. My guide Dark Eagle has guided me so patiently so that I can now contact with love ones who have passed over. He led me to my Reiki teacher who worked with me to achieve my Reiki Master and still works with me to further my intuition and connection to create an amazing healing experience.

During lockdown in 2020, I completed 2 workshops, level 1 and level 2 on Accessing and healing through the Akashic Records.

By accessing the Akashic I can go further into past lives and help

people to heal and release past life issues, behaviours, fears and connections. This allows them to gain a better understanding of their soul purpose and their journey in this life time.

I really love to see people leave me after a healing session or a reading, feeling lighter, happy that they have connected with a loved one, or received guidance and messages. This makes my work worthwhile, and I feel so blessed to have this gift so I can share it with so many people. Knowing they can get closure, relief and answers to the questions and allow them the happiness they are seeking.

# MINDFULNESS4DOGS

Online training courses from puppies through to adult dogs

**At Mindfulness4dogs, we know that the way an owner behaves is one of the major deciding factors in their dog's behaviour.**

It's that key truth which inspired us to set up a business that's focused on helping owners and their dogs restore emotional balance, using one-on-one coaching, classes and online courses.

Over the years, we've learned of countless owners who've tried in vain to correct their dog's behaviour, and are still confused as to why their dog acts like they do.

We've seen far too many people struggle with the frustration and embarrassment that comes along with problematic pet behaviour.

We know it doesn't have to be like this.

That's why at Mindfulness4dogs, we connect with owners to empower them with the knowledge, understanding and support that they need to create good environments for physically and emotionally balanced dogs.

Mindfulness4dogs offers dog training in Hamilton, Cambridge and the wider Waikato districts, so no matter where you are we've got you covered. Our awesome training centre is situated midway between Hamilton and Cambridge.

We offer in home private 1-1 training, for puppies and adult dogs, covering general training through

to aggression and trauma. Our team also run group classes and workshops around Hamilton and Cambridge.

# Holistic Psychology with Crystal Foster

**I believe every person is a unique expression of creation, and that every part of us is sacred.**

The way I work is to walk alongside people as we explore the driving factors behind any mental health difficulties being experienced and address these together.

Since completing Clinical Psychology training in 2012 I have worked with people from all walks of life.

I incorporate mind, body, and emotion focused approaches, and can assist in helping you develop a deeper connection with yourself and your own wisdom through learning how to allow and honour your feelings as they arise with acceptance and compassion. I have also completed studies in the rapidly growing field of Nutritional Psychology. The understandings being brought forth in this area are paradigm-shifting for mental health! Good nutritional intake and absorption can strengthen resilience to stress, increase the ability to focus and think clearly, bring more balance to emotional states, and help improve sleep.

Another way I can assist is to help you develop skills in practicing trauma sensitive yoga and/or mindfulness. Trauma-sensitive yoga allows for the cultivation of peaceful embodiment without necessarily having to talk things through (because not everyone wants to talk). This can be a gentle and powerful way to connect with yourself through your body.

If you would like more info about Holistic Psychology, trauma-sensitive yoga, or group education on Nutritional Psychology or Holistic Mental Wellbeing, please contact me.

# Certified Feldenkrais® Practitioner

**The Feldenkrais Method® (pronounced FELD-den-krice, rhymes with “rice”) belongs to the field of somatic education.**

It uses gentle movement and directed attention to help people learn new and more effective ways of doing what they like. In plain terms, it's an easy way to reduce pain and be more in control; the movements involved are often slow, gentle and safe.

The health benefits are muscular ease, increased vitality, fewer pain meds, but also mental wellbeing and better self-care.

It is taught through group classes (Awareness Through Movement®) or individual hands-on sessions (Functional Integration®).

My journey towards becoming a Feldenkrais®

practitioner started from the desire to help my child who had had a stroke at just 40 days old. While originally I've been looking for ways to support children with special needs and their families, I now love taking care of mums at any stage of their mothering journey. I am also fascinated by all things brain,

and in my work with people living with persistent pain, I combine gentle movement, skilled touch and pain science education.

I teach group classes in Hamilton, including Pregnant Pauses® and Pelvic Floor workshops, and offer private sessions in Gordonton and Hamilton.

# Healing Power of Sound

## Annie Jameson

**Annie is a Sound Healer, Crystal Bowl Master, Musician and an Intuitive.**

Her love and passion is to create sacred sound with Alchemy Crystal Singing Bowls™ and other high vibrational instruments to bring people into a deeply relaxed centred space.

When the quartz crystal singing bowls are sounded with reverence they invoke a quiet peace that can still our minds and release stress from our bodies, allowing us to relax and be open to receive healing.

Our entire human body down to our DNA is crystalline in structure, causing it to respond and resonate with the extraordinary frequencies associated with quartz crystal.

Each sound healing session is a unique experience as Annie creates a sacred space, leading you on a journey within to heal mind, body and soul.

Through playing and toning with the crystal bowls she intuitively weaves the exquisite pure tones, bringing your chakras and energy into balance.

Transformation may be experienced on many levels.

Annie also creates music for deep relaxation, mindfulness and meditation.

# Intuitive Energy Healing

## with People & Animals

**The body, with its innate wisdom and intelligence, has the tools required for healing and creating positive change – its natural response is to flow, and thrive.**

Marguerite supports and inspires. She works with people and animals to assist them to flourish in their lives, overcome challenge, and reconnect with their own knowing. Healing the disconnect within the Self brings about a positive shift of awareness and consciousness.

Marguerite connects with your innate wisdom. She listens and is guided, as the body indicates the nature of the treatment that is most beneficial at that time. This gentle hands-on, and off, approach is unlimited and Light in its nature.

The benefits of this gentle and intuitive healing are many, and facilitate release and change where required.

As a Canine Therapeutic Bodyworker her healing work with animals, predominantly dogs, follows the same intuitive and empathic approach. Gentle releases with hands-on neurofascial bodywork, mobilisation of core body structures, craniosacral and subtle energy balancing. This work assists our canine friends mentally, emotionally and physically, and addresses a myriad of issues, including chronic silent pain – an unseen cause of stress and imbalance in our dogs. ## Vicki Winn Energy Healer

**Vicki works intuitively with different vibrational energy healing methods to support you, to clear blockages and dense energy held in your body, mind and emotions. This enables you to come into harmony, balance and healing, and feel more empowered and energised.**

I have worked with the First Light flower essences since 2006. I have seen shifts and changes within both myself and clients as the vibrational healing chord within each native NZ plant creates healing and harmony within our energy fields in a gentle yet dynamic way."

Each plant came forward with its own healing vibration to harmonise negative personality, attitudes, feelings, traumas and belief patterns that are held in the subconscious mind.

I intuitively choose a selection of essences for each person and then pass on any messages that come through. Each bottle lasts for a month with drops taken each day. These essences also work really well for children and pets.

I also offer Usui Reiki treatments which include sound healing with Tibetan bowls, light language and toning.

Reiki is able to relieve stress, anxiety, muscle tension, remove energy blocks, promote deep relaxation, strengthen the immune system and foster natural self-healing.

Channeled light language clears blocks and distortions in your energy, bypassing the logical mind to speak directly to your physical and spiritual bodies. I am guided by my guides, archangels and ascended masters and also the crystals that I work with regularly.

I work from Infinity crystal shop on Wednesday and Thursday and from home in Hamilton East by appointment.

## Carolyn Fox Tranquil Light Medium

I am medium and a healer. Coming from a long line of mediums going back generations, it has been so nice to have the support growing and learning my gifts.

Often people require a healing to enable them to move forward or to receive clear guidance. I work with cards in my readings and healings, often combining both depending on what a person needs.

My readings are done intuitively using messages from spirit, helped along with what I can see in the cards. I check for energy flow through the body and find areas that need focusing on.

Cards and crystals guide and assist in healing. My goal for everyone is to leave feeling refreshed and comforted with a sense of peace and understanding.

*In between this breath and another is where our Hearts find the stillness within the song of the Universe.*

*This is where I will greet you with love's embrace. Whispering our truth, I am not over there, I am here, right where you sit, be present with me and receive my gift.*

*I am as close as your next breath.*

*Feel with me, remember your Light, Listen without judgement.*

*Seeing from within, our hidden faces, hearing our silent message, surrender to her voice.*

*Bringing you home to Spirit. So you will know there is only this.*

**Empowering people to know that they know.**

**Are you looking for a different way of changing what is not working in your life?**

Access tools and processes have changed my life enormously. Before I discovered Access Bars (an energy process that releases stress) I was a broken lady.

Would you like to discover how easy it is? Do you have relationship problems? Anger? Anxiety? Depression? Headaches? Upsets? Body issues? Health issues? Job troubles? Scarcity issues? Stress? All of these and more can be changed easily using the processes of Access Consciousness.

Would you like a session over the phone or in person? Would you be interested in learning these energies? The beauty of energy work is you don't use your mind to figure it out, which means that you access your own awareness. Changing energy just requires that you choose to change.

My services include:

- MTVSS (an access consciousness process) for the immune system.
- MTVSS for the whole body (fibromyalgia, exhaustion etc), for more vitality.
- Access energetic facelift for beauty without botox.
- Body processes for relaxing the body and releasing pain.

# Sacred Self Care

## Magic Mornings by Vicki Shannon

**Creating a morning ritual is one of the best things you can do to enhance your day! We are not talking about getting up, brushing your teeth, making coffee in the same way. We are talking about a ritual that gives you time to breathe, relax and set up a positive start to your day so that, whatever happens, you are able to handle it with ease.**

Here are some morning rituals that take only ten minutes and can be done on even the most busy days.

**Journaling / Morning Pages** – when you first wake up in the morning, before you even get out of bed, grab your journal and write three pages of whatever is in your head. It may be the worries you have for the day, how beautiful the birds sound outside your bedroom window, or an idea you have for your business but are not ready to tell anyone yet.

Take the time to write three full pages. Once the pages are finished (write no more, no less) put your journal back and start your day. Do not reread your pages. Just let it be!

Another way is to journal using five focused questions that you answer such as: how am I feeling today? What is one thing I am grateful for? What is one thing I am looking forward to today? You can even buy journals that already have journal prompts to help you, or look online for some journal questions that you like.

**Ten yoga stretches in ten minutes** – this can be done using a YouTube clip (there are many yoga instructors who have ten minute morning yoga routines) or finding ten stretches that work for you (downward

dog, child's pose, spinal twist, happy baby, forward fold, thread the needle, etc ). Do this first thing in the morning as soon as you get out of bed! Commit to your stretches and be present in the movements. Notice how the movements feel in your body! For those of us who have jobs where we are sitting all day you can also take some of your stretches to work to do.

**A solitary mindful cup of tea** – a simple yet effective morning ritual is a solitary mindful cup of tea. When you first wake up in the morning, boil the jug and mindfully make your cup of tea. Notice how the water changes colour from the tea.

Find a quiet space in or outside your house and sit for ten minutes, drinking your cup of tea, trying to clear your mind and focus only on the taste, smell and other things that are around you. This moment of solitude may be the only one you get in your day!

**Morning Meditation** – one of my favourites is a ten minute morning meditation. I even manage to do this when the kids are home. After you have showered and dressed take yourself away and commit to a ten minute morning meditation.

Begin by focusing on the breath and then take yourself through a simple body scan. After this call on the five elements and try to clear your mind. If you struggle to come up with your own meditations to use check out our website for my water meditation and elemental calling – or you can find some on YouTube that focus on different topics such as affirmations, or clearing negative thoughts.

## Intuitive Healing For Body, Mind and Soul

Our daily lives are filled with pressure and stressful situations, juggling the many "roles" we fill, in any 24 Hour period, that we often forget to take time for ourselves, and so it becomes easy for us to lose touch with the essence of who we are and why we are – a spirit here having a human experience and here to express, through the things we love to do, the Infinite.

An Intuitive Healing session of aligning, balancing and grounding our energy system tends to connect us as a whole – mind, body and soul – to the Infinite. In this space we are able to access all that we need.

The sessions may include some of the following: Guided meditation, visualization, breath work, affirmations and body scanning.

These sessions are great for:

- Relaxing
- Releasing thoughts or patterns that no longer serve us
- Letting go of tension, stress anxiety and fear
- Building Vitality and Focus

Emerge feeling relaxed, focused, energised.

# Quinn Fogg – Refined Body Adjustment

**I have been in practice as a natural therapist since 1998, treating a variety of complaints which include headaches, back pain, sciatic discomfort, knee and ankle aches, occupation overuse syndrome and foot problems.**

It was in the process of this work that I developed a very soothing, non-invasive technique that is based on the principle that gentle persuasion is more effective than heavy muscle manipulation.

I have found that by being able to integrate my natural healing ability with my other modalities, disciplines and principles I am now able to offer a complementary and non-invasive holistic healing and accelerated recovery process.

Although my experience and practice was based firmly with people, I began to receive enquiries from small and large animal pet owners requesting assistance with various health issues which had arisen with their animals.

From there my animal practice grew to an extent where I now assist dogs, cats, horses and even the odd cow in my refined body ad-

justment therapy.

## In the Zone Healing with Glenys Earle

Glenys is passionate about helping people achieve greater wellness and vitality through her work as an Energy Healer. She believes it is our birthright to experience full health, joy and vitality.

As an energy healer Glenys can work directly to correct imbalances in the various subtle energies, or chi, that flow through and around your body. These energies include the chakras, meridians and aura. She also tunes in intuitively to uncover and release blockages at emotional or soul levels that are the underlying cause of the issue you are experiencing.

Glenys began her training in 2000 with Reiki energy healing, and since then has added ThetaHealing, Eden Energy Medicine, Akashic Records soul reading, flower essence therapy and soul dream analysis to her "toolkit".

These are all tools and techniques that she has learned and used successfully for her own healing journey first. With her original training in Physics, Glenys has a deep understanding of energy from the scientific quantum perspective.

An individual healing session with Glenys typically lasts one hour, and can be in person or online via Zoom. After a healing session clients almost always report feeling happier and lighter, as though a burden has been lifted.

Glenys also runs workshops to help overcome issues such as fatigue, insomnia, stress and anxiety, in which she teaches simple energy medicine techniques that are easily learned and applied.

# The Ideal Yoga Student

## Yogavana - Yoga with Penni

Recently talking with other yoga teachers our 'ideal yoga student' was mentioned. It's who we love to teach and design our classes for.

So who is the 'ideal student'? Maybe you immediately thought of Instagrammable impossibly bendy poses – guess again. It's internal – being interested in their relationship with yoga, and listening to their body and awareness.

This can be a process of understanding which version of a pose works for you. Not every body can do every pose. Anatomy, skeletal structure (and injury history) all play a part. But

every pose can be modified.

It's about balancing flexibility with strength. Some very flexible people need to not stretch so much as strengthen and stabilise in poses. Other people who say they're 'not flexible enough' to do yoga have good stability but could benefit from maintaining/increasing their RoM (range of motion).

It's not about becoming a contortionist, but keeping our bodies supple, stable and responsive to our daily needs throughout our lives.

Then there's balancing our mental and emotional states. An important part of Hatha Yoga practice is breath awareness. The techniques known as pranayama affect physical healing, stress levels and our whole parasympathetic nervous system (for more on this *Breath* by James Nestor is an interesting read).

When I see people in my classes take cues onboard, use pose variations as needed, listen to their bodies and stay conscious of their breath – they may not be the yoga stereotype, but I'm thinking, 'These are good yoga students'.

# Therapeutic Angel Jan Maunder

**Hello, my name is Jan Maunder. I'm a Registered Nurse of 20+ years and a light worker.**

I offer face to face and distance treatments like massage, reflexology, Indian head massage, lymphatic drainage, reiki, combined energy healing and intuitive reading, hypnotherapy and psychic online readings and courses.

I use my nursing knowledge to enhance my distance and face to face energy and reiki healings. I scan from head to toes, visualising every organ and tune into the client's needs to direct healing energy where my intuition feels it's most needed. This helps relax, re-energise and dispel unwanted negative energy from the body, mind and soul.

I use my skills of hypnotherapy, neuro-linguistic programming and theta healing to help clients move forward to a life of manageable stress and anxiety levels, and freedom from phobias or negative conditioning from childhood or toxic relationships. To help maintain and reinforce positive results meditation recordings are made and given to clients.

As my holistic skills develop, so do my psychic skills of mediumship. I now get regular input from the spirit and angelic realms. Very often my client's current issues are communicated to me by my spirit team before the client voices them.

I am a firm believer in the less the client tells me, the better they will believe and trust in what I and my tarot cards reveal. Thus as their current life story unfolds with the turning of each tarot card, their predicted future pathway being revealed by the tarot will more likely be acknowledged as truth and followed.

# The Path of Kriya Yoga with Kavita Parshotam

**Kriya Yoga is an ancient meditation technique. It works with energy in the deep astral spine where the chakras are located.**

The Kriya technique was hidden in secrecy for many centuries. The great Yoga Master Paramhansa Yogananda popularised it through his book *Autobiography of a Yogi*.

According to Yogananda, Kriya Yoga is the most effective technique available to mankind today for reaching the goal of Yoga: union with the Divine.

Yogananda says that Kriya Yoga quickens spiritual evolution. One Kriya breath, which takes about 30 seconds, gives you one year's worth of spiritual growth.

The daily practice of Kriya changes you from the inside out. Those things that held you back, soon start to fall away. You reach a point where

you are no longer driven by old habit patterns, but are freer to live in harmony with the universe and with your true soul nature.

The path of Kriya Yoga is very practical in that it helps you become a better person in every way. It brings harmony in your relationships. It enhances your ability to concentrate. It improves your general wellbeing.

You can begin on the path of Kriya Yoga with the *Learn to Meditate* course.

Here you will learn a simple yet effective technique of meditation that was taught by Yogananda. You'll also learn how to establish and maintain a sustainable meditation practice, and how to have deeper, calmer meditations.

Kavita is a lifelong disciple of Paramhansa Yogananda. Using apt metaphors, life experiences and storytelling, Kavita effortlessly weaves the spiritual teaching into daily living.

# Journey Practitioner with Jo Gordon

**I am a Journey Method Practitioner. I know what it's like to feel muted, oppressed and enclosed in grief. But I also know how it feels to burst out of that oppression, like taking a huge gasp of fresh air.**

That's why I believe passionately in creating a safe space for people to explore the process of nurturing both body and soul, in a way that promotes wellness.

The more people I spoke to, the more it became clear that everyone has experienced some level of trauma which limits their ability to live life to the fullest.

I've also learned that, for one reason or another, most people just don't allow themselves the space to work through their emotions in a productive way.

I want everyone to be able to experience that "gasp of fresh air" feeling. So, I created Guided by Grace, supporting people to uncover their authentic selves through an empathetic, inclusive process.

A process which empowers people with the qualities they need to release their most authentic selves, gives them hope, and helps them understand that they can move forward in life.

## **The Journey Method can help you if:**

- Fear, anxiety or stress is prevalent in your life
- You're feeling stuck or feel that there's just got to be more to life
- You're facing ill health or ongoing physical issues
- Unhealthy behaviors or circumstances leave you feeling depressed
- You're wanting more fulfilment in a relationship
- You're still searching for your infinite potential

The Journey Method utilises guided meditation style cellular healing. Sessions take 1-2 hours. Appointments are available via Zoom and in person in Hamilton.

## Sun Salutation series A

**Surya Namaskar, or Sun Salutations, is a sequence of poses that help to strengthen, align and warm the entire body. This sequence honors the sun, and the following sequence is a classic example, but there are many minor variations.**

By moving through the salutations slowly and rhythmically, they can become a sort of meditation exercise. You could try to focus on one place in the body, such

as the heart centre, or the root chakra, and work on maintaining this focus throughout the sequence. To challenge yourself and to work on increasing your fitness, you could move through the sequence by changing pose at each inhalation or exhalation. You could begin with 5 repetitions and increase as you get stronger.

## Morningstar Reiki with Sue Rhodes

**Kia ora my name is Sue Rhodes and I am a Usui Reiki Master.**

Reiki is a Japanese healing system that was founded by Mikao Usui. The word Reiki is a combination of two Japanese words, Rei translates as 'spirit or Universe' and Ki translates as 'life force

Energy'. Thus Reiki is energy healing that will bring about balance and harmony.

Reiki is complementary to other forms of healing, both natural and allopathic. Reiki is an experience so everyone will have their own, it is not something I can describe for you as it needs to be experienced by the individual.

Through my own personal experiences I find it helps me enter into a deep state of relaxation in which my body/mind naturally comes into balance.

Some of the benefits of Reiki are stress reduction, replenished energy levels, improvement of sleep, reduction of anxiety and an overall sense of well-being.

My journey with Reiki began when I completed my first level in 2008. Over the years I have learnt with various teachers and in 2019 I started from the beginning doing all my levels and within this process gained a great respect for Mikao Usui, the founder.

For me Reiki is about coming home to self, the remembering of your brilliant Light that is always there just sometimes covered over by your experiences and the journey of Life.

In 2008, Infinity moved to a bigger shop with space to hold classes, films, seminars, concerts and courses. The dream is ever evolving, in 2019 Infinity moved again. There is now even more space for products, healers and classes. As well as a monthly Spiritfest.

2021 brought more changes. Infinity is embracing the age of Aquarius with the addition of Female Energy at the helm.

Barry has been joined by his daughters Amanda and Nina which has brought a new direction and pace. We also have a wonderful team of very gifted healers and readers in store.

There has always been a family dream to provide a space where people can have a relaxed experience, to be able to shop, have a

This dream came into reality and ARK Infinity cafe was born. ARK stands for 'Acts of Random Kindness' something we embrace wholeheartedly at Infinity.

# Renee Barrett-Jones Wairua Light

## Tihei Mauri Ora!

I start by giving immense thanks to Nga Atua, the gods of above, below, beyond and within. The many universal energies that direct the flow of my Mauri. It is the essence of these energies that have created life force itself. Forever my heart will hold massive gratitude. From the mountain peaks of Tongariro and Tuhua, their waters that stream through the veins of Papatuanuku, hydrating and sustaining our lands, forever providing nutrients and resources for the survival of our physical being.

We each hold great magic deep within, not one being of greater or lesser quality. Equally, individually, personally spun perfectly for the purpose of one's journey.

My haerenga (journey) of wairua and energy has been known to me for as long I can remember. I have always been aware of my spiritual connection. The light I hold. The light I must share and the connection to the ones beyond and before me.

Being brought up in Te rohe potae, ki Taumarunui, being well connected to our whenua marae and elders has played a precious tone of music in my life. My father too has passed down his knowledge and the gifts of his experiences with wairua, healing and afterlife.

My soul purpose here on papatuanuku is to collectively rise spiritual vibration. To tautoko/support my brothers and sisters in their connection to healing and awakening their own inner spark. To shine this light upon all life force that reaches my Mauri.

Manaakitanga ki a koutou katoa.

## Sue Xu Therapy

I am grateful to my ancestors for teaching me the philosophy of being a human being and how to take good care of my health.

In 1992, I came to New Zealand. In 2006, I used my ancestors' medical knowledge to help my ex-husband recuperate from skin cancer.

My speciality is to use the whole traditional face-to-face diagnosis, scraping (Gua Sha), cupping and moxibustion therapy for conditioning and balance.

I also teach my unique skills to help people who need to learn. I use the Book of Changes (I Ching) to help clients deal with emotional problems too.

There are only three things of value in this world: Heaven, man and Earth.

May we all cherish our one-way trip!

### Testimonial

*Six years ago I had to have an operation on my forehead to get a cancerous growth removed at Waikato Hospital. It was done under local anaesthetic and was very painful. At the time, I was told to come back in ten weeks to have the same operation on the right side of my forehead and was given six different tablets "to be taken daily" from the chemist which I did for approximately two weeks, until I met Sue.*

*Sue told me to stop the tablets and she gave me treatment, Gua Sha, and an oil to rub on the right side of my forehead which was made from natural herbs. In a very short time, the signs of the cancer had disappeared, to the point where, when I went back to hospital, they could find no traces of cancer left, so did not operate.*

*That was over five years ago and I have not taken any pills or had any operation since.*

This is a taonga (a gift) that I so passionately share.

*I was extremely grateful for the way she approached the reading. It was thoughtful, sensitive and straight to the point and unapologetically kind and gentle. A lot of what was shared in the first set of cards were confirmation of where I understand I am in my healing pathway. The second set of cards were affirmations of where I am heading and decisions I am making. What I truly appreciated as well was the extra guidance extended by tupuna korero.*
